

BIOGRAPHIES

DJ FM

Having been part of the Southeast US Electronic Dance Music scene for the better part of a decade, there's not a lot Jon Gerler (aka. FM) hasn't seen or done. He's produced 80+ songs and instrumentals, had his original tracks used on MTVs Real World, Road Rules, The Hills and Making The Band, performed his music with the aid of a live band, and DJ-ed at venues from North Carolina to Massachusetts. FM's sets bring his signature mix of melodic progressive and intelligent electro (with some old skool classics thrown in) which always keep the house rocking!

BIG HOP

Born and raised in Newport News, VA, Big Hop was always a fan of music. Early musical influences range from Motown, Rock, and Reggae music, along with hip hop. During college, he began recording digitally with the help of former group mate, Trigga. The two together formed the Artistic Anarchists, performing locally and setting the groundwork for Hop's solo career. Since 2005, Big Hop has been steadily releasing music and performing all over North Carolina, as well as Virginia, South Carolina, and Georgia, building an ever growing fan base along the way. Now with the release of the "Investment" LP with producer StretchknockS, Big Hop is looking to spread his wings farther with regional tours, managerial relationships, promotion, etc.

In Early 2008, long-standing NC DJ/Producer/Multi-instrumentalist DJ FM was introduced to Greenville MC Big Hop by a mutual friend. Upon hearing some instrumentals which FM had put together, the duo began work on their debut EP, "Influenced" almost immediately. The EP marks significant departures in style for both artists, as FM traditionally spins and produces various styles of house ("Influenced" is a mix of hip hop and drum&bass) and Hop is known for a diverse range of hip-hop stylings, but has never delved into EDM or drum&bass. In July of 2009, the group made their debut performance at The Berkeley Cafe in Raleigh, and then again in September at The Black Flower for SPARKcon. "Influenced" is now available on iTunes, Amazon, and various other online retailers.
